Directors' Report

Half Year ended December 31, 2019

We are pleased to present the financial statements (un-audited) for the half year ended December 31, 2019.

For the half year, the turnover was Rs. 44,469 Million; cost of sales were Rs. 34,364 Million; and profit after tax stood at Rs. 11,727 Million (compared to Rs. 6,322 Million in the corresponding period last year) giving an EPS of Rs. 13.32 (Rs. 7.18 in the corresponding period last year).

During the second quarter, the Power Plant generated 174 GWh of electricity (year to date generation level 2,275 GWh) at a load factor of 5.9% (year to date load factor 38.4%) with an overall commercial availability of 97.5% (year to date overall commercial availability 97.1%).

On December 31, 2019, the overdue receivables amounted to Rs. 101,175 Million. The Company continues to pursue the off-taker and concerned Ministries in the Government of Pakistan for resolution of the matter.

As at December 31, 2019 the accumulated amount of liquidated damages invoiced to the Company amount to Rs. 27,681 Million for the period 2008-09 to June 30, 2016. The Company has commenced arbitration proceedings in Singapore under the International Chamber of Commerce (ICC) Rules for the settlement of this issue in accordance with the provisions of the Power Purchase Agreement. As per legal advice received, the arbitration is proceeding satisfactorily.

During the review period, combustion inspection of two gas turbines; and major overhauling of two gas turbines were carried out as per plan.

Following shareholder approval at the Annual General Meeting on October 28, 2019, the final cash dividend of Rs. 3.00 per share (at par value of Rs. 10.00) was paid in November 2019; culminating in a full year 2018/19 cash dividend of Rs. 4.50 per share.

The Company has complied with the requirements of the Regulations in the following manner:

**Independent Auditor's Review Report
to the Members of Kot Addu Power Company Limited
Report on Review of Condensed Interim Financial Statements**

Introduction

We have reviewed the accompanying condensed interim statement of financial position of **Kot Addu Power Company Limited** (the Company) as at December 31, 2019, the related condensed interim statement of profit or loss, condensed interim statement of comprehensive income, condensed interim statement of cash flows, and condensed interim statement of changes in equity and notes to the financial statements for the six months period then ended (here-in-after referred to as the "interim financial statements"). Management is responsible for the preparation and presentation of these Condensed interim financial statements in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these Condensed interim financial statements based on our review. The figures of the condensed interim statement of profit or loss for the three months period ended December 31, 2019 have not been reviewed, as we are required to review only the cumulative figures for the six months period ended December 31, 2019.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Condensed interim financial statements as at December 31, 2019 and for the six months period then ended, is not prepared, in all material respects, in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting.

Emphasis of Matter

We draw attention to note 6.1 (iii) to the interim financial statements which describes the uncertainty regarding the outcome of certain claims lodged by Pakistan Water and Power Development Authority (WAPDA), which have been disputed by the Company. Our conclusion is not qualified in respect of this matter.

The engagement partner on the review resulting in this independent auditor's report is Rana M. Usman Khan.

1. Legal status and nature of business

Kot Addu Power Company Limited ('the Company or KAPCO'), was incorporated in Pakistan on April 25, 1996 as a public limited company under the Companies Ordinance, 1984 (now Companies Act, 2017). The Company was listed on April 18, 2005 on Pakistan Stock Exchange Limited. The principal activities of the Company are to own, operate and maintain a multi-fuel fired power station with fifteen generating units with a nameplate capacity of 1,600 MW in Kot Addu, District Muzaffargarh, Punjab, Pakistan and to sell the electricity produced therefrom to a single customer, the Pakistan Water and Power Development Authority (WAPDA) under a Power Purchase Agreement (PPA).

2. Basis of preparation

2.1 These condensed interim financial statements are un-audited and have been prepared in accordance with the requirements of the International Accounting Standard (IAS) 34 - 'Interim Financial Reporting' and provisions of and directives issued under the Companies Act, 2017. In case where the requirements differ, the provisions of or directives issued under the Companies Act, 2017 have been followed.

2.2 Expiry of PPA and going concern assumption

The existing PPA is for the term of 25 years which will expire on June 26, 2021. As per the stipulations of PPA relating to renewal, the Company has taken-up the matter for new or renewal / extension of PPA with WAPDA and other relevant quarters of the Government of Pakistan (GOP/Government).

The Government of Pakistan is in process of implementing reforms in the energy sector and is formulating a new energy policy for issuance and renewal of power purchase contracts. Under the proposed energy policy, a merchant market contract regime on competitive pricing mechanism (take & pay basis) is expected to be introduced, for both new and renewal cases. Since, the timeframe and structure of the new energy policy is being finalized, therefore, the terms and conditions of sale / purchase of electricity by the company and the level of plant utilization beyond June 26, 2021, will be determined after the promulgation of the said policy and negotiations. It is expected that the Plant will be technically and commercially viable under the new regime.

2.3 Restatement True-up Income

True-up income results from change in US Dollar - Pak Rupee exchange rate exceeding the threshold defined in PPA, compared to the rates used for indexation calculation of relevant CPP invoices, under section 13.4 (iv) of Part II of Schedule 6 of PPA. Previously the Company recorded True-up Income on the basis of total CPP amount (including the CPP amount not yet realized) as on reporting date. At the financial year ended June 30, 2019, the application of IFRS 15 'Revenue from Contracts with customers' was assessed and it was concluded that True-up income contained variable consideration subject to significant uncertainties attributable to factors beyond the Company's

influence, therefore this income was recognized to the extent of firmed up consideration i.e. to the extent of receipts of relevant underlying CPP invoices till reporting date. Therefore, during this period, the Company reduced True-up income of six months ended December 31, 2018 by Rs 3,877 million, previously recognized in other Income, attributable to delay in timing of recognition. Further, tax expense has also been reduced by Rs 1,202 million, having a total impact (net of tax) of Rs 2,675 million on profit after tax earlier reported for the comparative period.

3. Summary of significant accounting policies, accounting estimates, judgments and risk management

These condensed interim financial statements do not include all the statements required for annual financial statements including financial risk management statements and therefore should be read in conjunction with the annual financial statements for the year ended June 30, 2019.

The principal accounting policies applied in the preparation of these condensed interim financial statements are the same, except for IFRS 16 'Leases', as those applied in the preparation of the annual financial statements of the Company for the year ended June 30, 2019. Further, the basis of significant estimates are same as those that were applied to the financial statements for the year ended June 30, 2019.

4. Standards, amendments and interpretations

The new and revised relevant IFRSs effective in the current period had no significant impact on the amounts reported and disclosures in these condensed interim financial statements except the following:

Impact of IFRS 16 - 'Leases'

IFRS 16 replaces existing guidance on accounting for leases, including IAS 17, 'Leases', IFRIC 4, 'Determining whether an Arrangement contains a Lease', SIC-15, 'Operating Leases- Incentive', and SIC-27, 'Evaluating the Substance of Transactions Involving the Legal Form of a Lease'. IFRS 16 introduces an on balance sheet lease accounting model for long term operating leases (short-term leases and leases where the underlying assets are of low value continue to be treated as off-balance sheet operating leases). A lessee recognizes a 'right of use' asset representing its right of using the underlying asset and a corresponding lease liability representing its obligations to make lease payments.

Lessor accounting remains similar to the current standard i.e. lessors continue to classify leases as either finance or operating leases. However, SECP through S.R.O. 986 (I)/2019, dated September 2, 2019, has granted exemption from requirements of IFRS 16 to Power Companies to the extent of the power purchase agreements executed before the effective date of IFRS 16.

The Company has adopted IFRS 16 from July 1, 2019 for leases not falling under the domain of PPA. The Company has assessed that there is no impact of IFRS 16 on the Company's financial statements, results of transition is summarized below:

Notes to Condensed Interim Financial Statements
for the six months period ended December 31, 2019 (Un-audited)

Previously used nomenclature	Current nomenclature	Amount as per IAS 17 (Rupees in thousand)	Amount as per IFRS 16
Assets subject to finance lease	Right of use assets	34,721	34,721
Liabilities against assets subject to finance lease	Lease liabilities	38,082	38,082

5. Trade and other payables

Trade and other payables include payable to Pakistan State Oil (PSO) amounting to Nil (June 30, 2019: Rs 4,105 million) and Sui Northern Gas Pipelines Limited (SNGPL) amounting to Rs 9,076 million (June 30, 2019: Rs 15,053 million) against fuel supplies.

6. Contingencies and commitments

6.1 Contingencies

There has been no change in the status of the contingent liabilities disclosed in the annual financial statements of the Company for the year ended June 30, 2019 except for the following:

- (i) Income tax returns of the Company for tax years 2003 to 2007 were filed, wherein, only normal tax depreciation was claimed. However, the aforesaid returns were revised thereby depreciation and initial allowance earlier claimed in respect of assets in the original income tax returns for tax periods upto June 27, 2006 were not claimed being the date upto which the Company was exempt from levy of income tax.

Tax depreciation in income tax return for tax year 2008 was also claimed with resultant written down value carried forward from tax year 2007, as computed in the revised return of income in accordance with position explained above. Such return and revised returns for tax year 2003 to 2007 were amended by Tax Authorities by restoring the earlier position and were also endorsed by Commissioner Inland Revenue (Appeals) [CIR(A)]. The Company preferred appeal before Income Tax Appellate Tribunal (ITAT) [now Appellate Tribunal Inland Revenue (ATIR)] against the decision of CIR(A) which was decided in the Company's favor in April 2012. No appeal was filed by the Tax Department before Honorable Lahore High Court (LHC) within the time stipulated under law.

Later on the Tax Department filed miscellaneous application for rectification before ATIR which was decided against the Company. Being aggrieved, the Company filed reference with the LHC against this order.

In 2018, the LHC issued an order dated December 05, 2018 wherein it was held that the miscellaneous applications filed by the Tax Department at ATIR for recalling the earlier orders (which were in favor of the Company) are set aside and remanded back to ATIR with the direction that these miscellaneous applications will be deemed pending before ATIR and ATIR after allowing

proper opportunity of being heard to both the parties, shall decide in detail these applications. Thus original orders passed by ATIR in favor of Company are restored automatically and these orders will be considered as orders in field.

The management is of the view that instead of being remanded back to ATIR, case should have been decided in favor of the Company. Being aggrieved, the Company applied for leave of appeal from Honorable Supreme Court of Pakistan who vide their order dated August 21, 2019 remanded the case back to Lahore High Court to decide the same afresh after addressing the question of law involved therein.

The management is of the view that there are meritorious grounds available to defend the foregoing demand. Consequently no provision for such demand has been made in these condensed interim financial statements.

- (ii) Additional Commissioner Inland Revenue amended the assessment of tax year 2016 and issued order by disallowing certain expenses, on October 13, 2017 creating a demand of Rs 1,162 million which was later reduced to Rs 1,077 million through rectification order. The Company filed an appeal before CIR(A) who vide order dated January 11, 2018 reduced the demand to Rs 779 million.

Being aggrieved with the order of the CIR(A), both the Department and the Company filed appeals before the ATIR. After hearing the stance of both the parties in appeal, ATIR proceeded to uphold the order passed by the learned CIR(A). Being aggrieved both the Department and the Company filed appeals before the Honorable Lahore High Court who vide their order dated February 22, 2019 remanded the case back to ATIR for fresh proceedings. The management is of the view that there are meritorious grounds available to defend the foregoing demand. Consequently no provision for such demand has been made in these condensed interim financial statements.

- (iii) Water and Power Development Authority (WAPDA) had raised invoices for liquidated damages to the Company for the years ended June 30, 2009 through 2016 (after taking into account forced outage allowance stipulated under the terms of PPA) on account of short supply of electricity by the Company, which was due to cash flow constraints of the Company as a result of default by WAPDA in making timely payments. Liquidated damages invoiced to the Company amount to Rs 27,898 million (June 30, 2019: Rs 27,898 million). Estimated amount of liquidated damages (including un-invoiced liquidated damages till December 31, 2019) are not expected to exceed Rs 27,681 million as at December 31, 2019 (June 30, 2019: Rs 27,681 million) based on the best estimate of the management of the Company.

The Company disputes and rejects any claim on account of liquidated damages that may be raised by WAPDA on the premise that its failure to dispatch electricity was due to WAPDA's non-payment of dues on timely basis to the Company and consequential inability of the Company to make timely

payments to its fuel supplier (PSO) that resulted in inadequate level of electricity production owing to shortage of fuel. In this regard, the Company has initiated the dispute resolution procedures specified in the PPA and has commenced proceedings for Arbitration in Singapore under the rules of International Chamber of Commerce (ICC).

In June 2019, the ICC Tribunal in its partial award has decided matters related to its jurisdiction over WAPDA, Central Power Purchasing Agency (Guarantee) Limited (CPPA – G) and Government of Pakistan (GoP). After considering various factors including provisions of PPA, Facilitation Agreement and GOP's Guarantee, the ICC Tribunal has decided that it has jurisdiction over WAPDA and since then, the arbitration proceedings continue between WAPDA and the Company. In keeping with procedural timetable agreed, the Company submitted its Memorial and other related documents with the ICC Tribunal in November 2019.

According to legal advice available with the Company, there are adequate grounds to defend any claim by WAPDA for such liquidated damages since these conditions were imposed on the Company due to circumstances beyond its control. The ultimate outcome of the matter cannot presently be determined, and consequently no provision for such liquidated damages has been made in these condensed interim financial statements.

- (iv) The Company has provided bank guarantee in favor of Sui Northern Gas Pipelines Limited (SNGPL) on account of payment of dues against gas sales etc., amounting to Rs 4 million (June 30, 2019: Rs 4 million).

6.2 Commitments

- (i) Contracts for capital expenditure Rs 29 million (June 30, 2019: Rs 21 million).
(ii) Letters of credit other than for capital expenditure Rs 650 million (June 30, 2019: Rs 128 million).
(iii) Contracts for car ljarah are Rs 58 million (June 30, 2019: Rs 59 million).
